

COMPETITIVE SECTION

The following competitions will be carried out on the Event Day (27th November). One team may participate in more than one competition as they will be staggered to maintain time gap.

Note: The participants will have to bring their own devices to compete, Facility for Charging and Internet access will be provided by the Club.

Web Development:

Charge: Rs. 1000 (Solo) / Rs. 1900 (Duo)

Time: 2 hrs.

Procedure: A theme will be provided to participants upon which they have to create a website.

Precautions: The code should not be copied and participants will be deprived of any **assisting software/extensions** (e.g. GitHub Copilot).

Code Jam:

Charge: Rs. 1000 (Solo) / Rs. 1900 (Duo)

Time: 3 hrs.

Procedure: Students will be provided sets of number of questions they have to solve to proceed. Each question will be unique while still using simple and easy mechanics. The code should not be copied and participants will be deprived of the **internet** and any **assisting software**.

Graphics Design:

Charge: Rs. 1000 (Solo) / Rs. 1900 (Duo)

Time: 1 hr 30 min.

Procedure: Students will be given a theme they have to work on. Each participant must create unique and original art. Sprites can be accessed through the internet but must be mentioned and credited at the end. No assisting AI software should be used.

Robo Wars:

Charge: Rs. 1000

Procedure: Students must bring their own robots personally or through any schools/institution. They will participate in a tournament with the best of three rounds. There will be a circular arena, the one who knocks the other one out of the ring will win.

For Details on What sort of build to make, please refer to this video.

<https://sx3c.tech/robowars>

Orientation will be held for all the participants a day before the event at 6pm. Please visit <https://sx3c.tech/orientation> (Will redirect to google meet) at the same time for orientation.
